

## Description

### MDK9263-G hardware

Core Board Base Board design AT91SAM9263, industrial, Pb free, Rev.B (boot directly from NAND) 64MB SDRAM 4MB dataflash (optinal) 128MB NAND Flash Optinoal Nor Flash on Core Board USB 2.0 Device Port USB 2.0 HOST Port JTAG Debug Port 10/100M Ethernet 3.5 TFT LCD with touch screen DBGU port SD/MMC card socket CAN interface (optinal) I2C EEPROM (24C02) GPS GPRS (optinal)

### MDK9263-G software

1, test code

LCD test code, IAR version

LED GPIO test code, KEIL and IAR version

Ethernet test code, IAR version

AT91 softpack, include:

DataFlash test code

Dhrystone test code

LCD test code

NAND FLASH test code

NOR FLASH test code

RTT test code

SD test code

LED test code

Slideshow LCD test code

USB Device test code

HID Keyboard test code

Mass storage test code

CAN test code

EMAC lwip test code

EMAC uip test code

ISO7816 smart card test code

PWM test code

TWI (IIC/I2C) test code

USART test code

2, linux

U-Boot source code

busybox source code

Linux toolchain

Linux 2.6.xx bin file

Drivers:

CAN driver (opt)

10/100M ethernet driver

2 USB HOST driver, USB mass storage/USB HID/USB2UART

USB Device driver (opt)

LCD driver

Touch screen driver

UART driver

Key driver

Nand Flash MTD driver

- jffs2 file system support
- FAT file system support
- SPI driver
- TWI(I2C) driver
- RTT/RTC driver
- USB sound card driver
- DataFlash driver
- SD/MMC driver
- wifi(opt)
- camera(opt)
- BT download example
- webserver examle,base on boa
- share,based on samba
- UI example,based on miniGUI
- tftp,telnetd
- GPS example

3,wince

- wince5 source code BSP

- wince6 source code BSP

Drivers

- 10/100M ethernet

- 2 USB HOST

- USB Device(ActiveSync)

- LCD

- Touch screen

- UART

- LED

- Nand Flash

- TWI(I2C)

- Key

- SPI

- SD/MMC

- wifi(opt)

- TCPMP

- GPS example

4,RTOS

- uc/OS II

- ucGUI(opt)

- FreeRTOS(opt)

5,IDEs

- ADS

- KEIL

- IAR

- RV2.2

- AT91-ISP

- HJTAG

6,PDFs

- device datasheet

- Schematic

- User guide

**[Notes]**

looking for worldwide local agentpaypal acceptablebefore you press the order please go to DHL website to confirm if your location is belong to Remote Area,if so need another 30 USD for Remote Area Service.and we suggest that you contact us to confirm the shipping cost before press the order,maybe your location have a more discount

ATMEL ARM9 MDK9263-G 3.5'TFT LCD 320\*240 AT91SAM9263 processing

worldwide local agentpaypal acceptablebefore you press the order please go to DHL website to confirm if your location is belong to Remote Area,if so need another 30 USD for Remote Area Service.and we suggest that you contact us to confirm the shipping cost before press the order,maybe your location have a more discount

USB AVR debugWIRE Emulator(mkII Lite V2)

ays

<b>Sample Available</b>	Yes
<b>Delivery Details</b>	According to order details
<b>FOB Port</b>	Ningbo
<b>Loading Info</b>	By express; by air; by sea
<b>Packing Info</b>	Inside and outside packing
<b>Target Market(s)</b>	Africa, Eastern Europe, Hong Kong/ Macao/ Taiwan, Japan & Korea, Latin America, Mainland China, Middle East, North America, Northern Europe, Oceania, South Asia, Southeast Asia, Western Europe

Epistar chip 3528 LED Module

align= left >

7-8lm

**Application:**

1. Interior automotive lighting ( dashboard backlight etc)

2. Indoor LED display board, T5, T8, T10 tube, SMD LED flexible strip.
3. Decoration, illumination, emitting module, flashlight
4. Back-lighting, LCDs Key pads advertising.

**♣Application:**

4000-4500K 7-8lm Ultra bright 3528 white SMD LEDs with Epistar chip

Application:

Courtyard; garden, downtown, school road, main road, factory  
lighting, industry lighting, street lamp, court, bridge, square, ext.

**Trade terms**

1. Payment: T/T 30% deposited before production, 70% balance to be paid before delivery.
2. Samples can be delivered in 7-10 working days
3. Shipping freight are quoted under yours
4. Shipping port: zhongshan port
5. Discounts are offered based on order quantities
