

BIPOLAR ANALOG INTEGRATED CIRCUIT

μ PC812

DUAL J-FET INPUT LOW-OFFSET OPERATIONAL AMPLIFIER

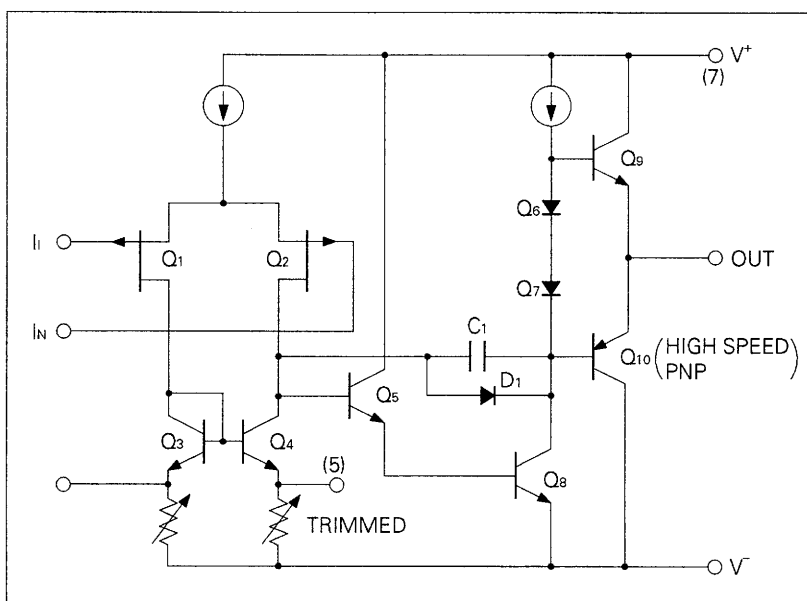

DESCRIPTION

Dual operational amplifier μ PC812 offers high input impedance, low offset voltage, high slew rate, and stable AC operating characteristics. NEC's unique high-speed PNP transistor ($f_T = 300$ MHz) in the output stage solves the oscillation problem of current sinking with a large capacitive load. Zener-zap resistor trimming in the input stage produces excellent offset voltage and temperature drift characteristics.

FEATURES

- Stable operation with 10 000 pF capacitive load
- Low input offset voltage
 ± 3 mV (MAX.)
 ± 7 μ V/ $^{\circ}$ C (TYP.) temperature drift
- Very low input bias and offset currents
- Low noise : $e_n = 19$ nV/ $\sqrt{\text{Hz}}$ (TYP.)
- Output short circuit protection
- High input impedance ... J-FET Input Stage
- Internal frequency compensation
- High slew rate: 15 V/ μ s (TYP.)

Note 1. Reverse connection of supply voltage can cause destruction.

Note 2. The input voltage should be allowed to input without damage or destruction. Even during the transition period of supply voltage, power on/off etc., this specification should be kept. The normal operation will establish when the both inputs are within the Common Mode Input Voltage Range of electrical characteristics.

Note 3. This specification is the voltage which should be allowed to supply to the output terminal from external without damage or destructive. Even during the transition period of supply voltage, power on/off etc., this specification should be kept. The output voltage of normal operation will be the Output Voltage Swing of electrical characteristics.

Note 4. Thermal derating factor is $-5.0\text{ mW}/^{\circ}\text{C}$ when ambient temperature is higher than $55\text{ }^{\circ}\text{C}$.

Note 5. Thermal derating factor is $-4.4\text{ mW}/^{\circ}\text{C}$ when ambient temperature is higher than $25\text{ }^{\circ}\text{C}$.

Note 6. Pay careful attention to the total power dissipation not to exceed the absolute maximum ratings, Note 4 and Note 5.
