

Description

This sensor works as a switch, conducts while flow pass through.

Specifications

- Max switch current: 0.5 A
- Max load current : 1.0 A
- Max resistance: 100 ohm
- Max load power: 10 w
- Max switch voltage: 100 vdc
- Min damage voltage: 220 vdc
- Min sensible flow: $\geq 0.1\text{L}/\text{MIN}$
- Working flow range: 1-30L/MIN
- Min sensible pressure: $\geq 0.1\text{ mpa}$
- Min water pressure: 0.1 mpa
- Max water pressure: 1.2 mpa
- Working temperature: 1-80°C
- Storage temperature: -20-10°C
- Life: >108 times
- Response time : 0.2 sec
- Release time : 0.2 sec
